-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 February 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02/16/05 has been entered.

2. This Office Action is responsive to Amendment filed on 02/16/05. Claims 1-4, 6-7, 9, 11-12, 14, 16-19, 21-24 and 26-31 have been amended, and new claims 32-34 have been added. Claims 1-7, 9-14, 16-19, 21-24 and 26-34 are currently pending.

Claim Objections

3. Claim 24 is objected to because of the following informalities:

- Claim 24, line 1, --claim-- should be inserted after "of".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an

Art Unit: 3681

international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-7, 9-11, 14, 16-17, 19, 21-24, 26, 28 and 30 are rejected under 35 U.S.C. 102(e) as being anticipated by Bowen et al. (US 6,589,128).

Bowen et al' 128 shows a hybrid vehicle comprising:

a primary power source or a powertrain (12); a transmission (14); a rear driveline including a rear differential (24) connecting a pair of rear wheels (22); a front driveline including a front differential (34) connecting a pair of front wheels (32 (see Fig. 1);

a transfer case (16) (see Figs 1 and 2) including a rear output shaft (30), a front output shaft (40), a reduction gearset (58) having an input (114), an output (120), and an electric motor (68);

a mode clutch (66) and a clutch operator (214A);

a control system (42) for controlling actuation of the mode clutch and the electric motor, the control system including a controller (48) and sensors (314-320); and

a transfer unit (180, 182, 186);

wherein said control system is operable to define an two-wheel/four-wheel electric operating mode when the electric motor is actuated to drive the front output shaft (40) while the rear output shaft (30) is not driven by the primary power source or powertrain (see Fig. 11A, and col. 10, lines 4-11);

wherein a hybrid or two-wheel/four-wheel drive hybrid operating mode is established when the primary power source or powertrain drives the rear output shaft (30) and the electric motor is actuated to drive the front output shaft (40) (see Fig. 11B, and col. 10, lines 4-11);

Art Unit: 3681

wherein an two-wheel/four-wheel engine operating mode is established when the electric motor is off and the primary power source or powertrain drives the rear output shaft (30) (see Fig. 11C, and col. 10, lines 4-11);

Allowable Subject Matter

6. Claims 12, 13, 18, 29 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claims 27 and 32-34 are allowed.

Response to Arguments

8. Applicant's arguments filed 02/16/05 have been considered but are moot in view of the new ground(s) of rejection (see paragraph 5 above).

Communication

9. Submission of your response by facsimile transmission is encouraged. The fax phone numbers for the organization where this application or proceeding is assigned are **(703) 872-9306**. Recognizing the fact that reducing cycle time in the processing and examination of patent applications will effectively increase a patent's term, it is to your benefit to submit responses by facsimile transmission whenever permissible. Such submission will place the response directly in our examining group's hands and will eliminate Post Office processing and delivery time as well as the PTO's mail room processing and delivery time. For a complete list of correspondence not permitted by facsimile transmission, see M.P.E.P. 502.01. In general, most responses and/or amendments not requiring a fee, as well as those requiring a fee but charging such fee to a deposit account, can be submitted by facsimile transmission. Responses requiring a fee which applicant is paying by check should not be submitting by facsimile transmission separately from the check. Responses submitted by facsimile transmission should include a Certificate of Transmission (M.P.E.P. 512). The following is an example of the format the certification might take:

Art Unit: 3681

I hereby certify that this correspondence is being facsimile transmitted to
the Patent and Trademark Office on _____

(Date)

Typed or printed name of person signing this certificate:

(Signature)

If your response is submitted by facsimile transmission, you are hereby reminded that the original should be retained as evidence of authenticity (37 CFR 1.4 and M.P.E.P. 502.02). Please do not separately mail the original or another copy unless required by the Patent and Trademark Office. Submission of the original response or a follow-up copy of the response after your response has been transmitted by facsimile will only cause further unnecessary delays in the processing of your application; duplicate responses where fees are charged to a deposit account may result in those fees being charged twice.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ha D. Ho whose telephone number is **571-272-7091**. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on **571-272-7095**.

10. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
